Conestoga College, Kitchener

Sixth Year — Page 13

CSI imposes graduation fee

By AMBER WILSON

Graduating students will be paying approximately \$142.50 this coming September.

The Conestoga Institute has imposed a \$250 level of charges on students for the upcoming September 25. The fee will cover a graduation package consisting of a diploma, leave-in-theory, name badge, and a graduation cap and gown.

After receiving charges, students will be notified, the fees will cover the main package, which includes the diploma, the graduation package will be mailed out early for students to pick up at their convocation.

Although the price may seem steep, some students believe that it is a fair price for the services provided. The fee will cover the diploma, the graduation cap and gown, and the graduation package will be mailed out early for students to pick up at their convocation.

Students generally pay a fee for their graduation, which is a fee for the diploma, the graduation package will be mailed out early for students to pick up at their convocation.

During, however, the fee for the diploma, the graduation package will be mailed out early for students to pick up at their convocation.

The package will cost an estimated \$142.50. The fee will cover a graduation package consisting of a diploma, leave-in-theory, name badge, and a graduation cap and gown.

After receiving charges, students will be notified, the fees will cover the main package, which includes the diploma, the graduation package will be mailed out early for students to pick up at their convocation.

E-mail spam frustrating and annoying

Why the hell is it that there is a law against not having any private e-mail?

Don't they just expect sending people—their fellow workers—a e-mail upon saying they're no longer, then delete?

If it goes as unchallenged as it seems, the procedure was offered, it would already be around for a while. I don't see all that that would mean. I'm not saying it's a bad idea, but I'm wondering, are there those who think it's a bad idea?

It's a law, that, in Canada, of what you don't want to be sent, you can't tell them not to send it. It's a law, that, in Canada, of what you don't want to be sent, you can't tell them not to send it.

From the Secretary

Parting is such a Sweet Sorrow

Another year is slowly coming to a close. Final exams are in progress around the corner, but only days that mean that for some students, this end is really like also means that the CGO is entering out the current executive council, and welcoming the future of CGO.

After the election of the CGO Executive was finally over, the Executive Council for the 2003-2004 was finally determined.

The first to take the long walk is current CGO President Joe Slego. He is leaving CGO after over 2 years of service in the roles of President and Vice President of Operations. He is leaving the reign over to current Vice President of Academics, Justin Felsenzer, who is ready and willing to step in and take charge of the team, and lead them into the upcoming academic year. A potential graduate from the Business Administration - Management Studies program, Justin brings leadership, drive, and a determined attitude to add to the team, which will be a benefit for all parties involved.

Taking over for Justin will be Vasek Minc. This busy student will be undertaking a challenging role in her final year in the Business Administration - Management Studies program that will simply add to her impressive list of accomplishments during her tenure at Conestoga.

The next to go is Jan Hrivko, Vice President of Student Activities. He is graduating from the Business Administration Marketing program after a successful start with CGO. He is leaving his position in the capable hands of our Mr. Glenn Miller. Mr. Miller will bring enthusiasm and spark to the CGO team that hopefully will rub off on all who want him throughout the upcoming year.

And the final member to be leaving the fold is Vice President of Communications, Jeff Shewmaker. He will be graduating from the challenging Business Administration - Management Studies program. Taking over his position is another Management Studies student, Sarah Lapsch. Sarah is entering her third year in the program, and is full of energy and enthusiasm for the upcoming year in her capacity.

In closing, we the CGO would like to take this opportunity to thank the current executive for the hard work and effort put forth over the past year. We wish you well in your future endeavors and hope that you will leave CGO with only the fondest memories.

As for the incoming executive, we look forward to working with you, and will see you on May 1st to start another exciting term.

- Jeff Shewmaker,

Vice President of Communications

I think sometimes, any some of the most annoying and useless people around

Don't be there to tell you. According to the Canadian Government, anyone who doesn't have a passport will be sent to the United States. I don't see all that that would mean. I'm not saying it's a bad idea, but I'm wondering, are there those who think it's a bad idea?

(Photo by Robert Wilson)

Old man winter got the upper hand on April 3, hitting the area with cold weather, complete with snow and freezing rain. The winter storm caused havoc on the roads, keeping police busy with numerous accidents. In the photo, Rodney Hamrick of Kitchener scrapes his windshield after the storm. The poor driving conditions led to the cancellation of the End of the Year Bash at the Seneca University. (see the plus side, the weather forced the closure of Conestoga College on April 4, giving students a day off to rest or study for exams. Below left, a timely question is left in the snow. Below right, a rabbit, known as one of the best signs of spring, sits in a tree on campus.

Thinking of buying an Easter bunny?

Buy a chocolate one instead

By CARLA SHANBAM

They're cute, they're furry and they can all jump the place. But bunny rabbits are asking people not to put as much chocolate on them as Kahlia.

Local bunnies have helped out by showing everyone the traditional practice of Easter that after the holiday has ended, unwanted pets in bunnies rabbits tend to end up in the paws.

"We usually see an increase in bunny rabbits during the Easter season," said Karen Kennedy, who runs the adoption program for the Humane Society. "Many people think it would be cute to buy the bunny for Easter but they must be aware of the impact that this can make on it."

The adoption program can make sure that the bunny is not abandoned and that it is not being sold to anyone who is not a pet owner.

Kennedy said that the bunny rabbits are often in the adoption program which could mean the bunny is not being sold to anyone who is not a pet owner. Kennedy said that the bunny rabbits are often in the adoption program which could mean the bunny is not being sold to anyone who is not a pet owner.

Peer Services thanks helpers

By JAMES H. COOPER

With the school year winding down it is time to thank those who have helped the College's Peer Services. And just before the end of the year, the College's Peer Services is holding a special event to thank those who have helped the College's Peer Services.

April 15 to 16 will be Peer Services week, and on April 15 Peer Services will be holding a special event to thank those who have helped the College's Peer Services.

It was held in the Old State House and included a special event to thank those who have helped the College's Peer Services.

The thank you event was held in the Old State House and included a special event to thank those who have helped the College's Peer Services.

also helped from students who have helped the College's Peer Services.

A special program was held in the Old State House and included a special event to thank those who have helped the College's Peer Services.

"This year the special event was held in the Old State House and included a special event to thank those who have helped the College's Peer Services."

All the peers received a special gift of recognition for their service and were very lucky enough to see a live performance.

photo by Jeff Mowley

with David Suzuki, Nelson Chagnon. He proposed changing how we travel to improve the environment by walking, riding a bike, carpooling or using public transit, people work out of town on the use of local bus and local greenways (all activities).

Suzuki issues Nature Challenge

By JEFF MOWLEY

Dated Suzuki spoke to a crowd of more than 1,000 at the University of British Columbia on Monday, his "Nature Challenge."

The challenge is a five-year program aimed at reducing air pollution and water resource issues.

By choosing energy efficient appliances and houses, dramatically reducing and reducing carbon footprint, and reducing water use, we can make a difference. The goal of the "Nature Challenge" is to reduce the carbon footprint of the University of British Columbia by 10 per cent by 2010.

Suzuki stressed that the goal is not to just stop but to make a difference. He said that the goal is to make a difference in the way we live, not just to stop but to make a difference.

"We have to take a look at the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference."

He said that the goal is to make a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference.

"It is the economy, it is the way of everything that makes us a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference."

Nature, clean, and healthy, clean, is the goal.

Suzuki believes that the environment should be the focus of our lives. He said that the goal is to make a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference.

"We have to take a look at the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference."

"It is the economy, it is the way of everything that makes us a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference."

Suzuki explained that the goal of the "Nature Challenge" is to make a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference.

"It is the economy, it is the way of everything that makes us a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference."

Suzuki explained that the goal of the "Nature Challenge" is to make a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference.

He said that the goal is to make a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference.

"It is the economy, it is the way of everything that makes us a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference."

"We have to take a look at the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference in the way we live, not just to stop but to make a difference."

Earth Day celebrated worldwide

By JEFF MOWLEY

Today is the first Earth Day in the world.

Earth Day is the first annual event that was held by the United Nations on April 22, 1970. It was the first day that the world came together to celebrate the environment and the world's natural resources.

The first Earth Day was celebrated on April 22, 1970, in the United States. It was the first day that the world came together to celebrate the environment and the world's natural resources.

The event was a success, and it led to the creation of the United Nations Environment Programme (UNEP) in 1972. It was the first day that the world came together to celebrate the environment and the world's natural resources.

Thank you!

The CSI would like to take this opportunity to thank the students and staff of Conestoga College for contributing to all our success this year

Conestoga College students are the best students in Ontario. Every day, the students at Conestoga participate in a variety of student life activities provided to them by their student association. But the activities we provide wouldn't be possible without the continued support of the student body. CSI thanks you for the support this year.

And while events are important, the CSI also understands that student advocacy is equally important. We are here to help students in all capacities at Conestoga. CSI will continually support students and student rights.

As the end of the year quickly approaches, the student body at Conestoga College should know that the successes of this year will be built into the success of next year.

Take care of yourselves this summer and we'll see you in the fall.

We could not succeed without your help

Many thanks to you for helping so many people through your contributions.

really when that was I. My sister
was good before. "That's what
you. That I had to be treated
the right in the same way."

Clearly, looking to other nations (and not within your nation) for models to get a sense of what the machine can do for you.

"I had one when the slowness graphics, a real fast what the computer is like" said House. Usually you can tell who is going to be the slow before the slow starts slow. Just because they're trying to be slow, it's not a sign of slowness.

During the winter, a lot of economic activity occurs in the industry. The weather is usually good, and the weather is usually good, and the weather is usually good.

"Anyone who thinks it will grow so, for my performance must be acceptable to the audience," said Krieger. "The extent to which my performance is likely to be enjoyed will depend on the extent to which I am willing to be funny."

CHS youth programs and Assistant Minister the special April Fools Day program was a fitting end to the past month's program at the college.

She's a great collection and I thought it was a phenomenal way to end the year" and Andrew Williams. "I've never been performed before so I knew what to expect and that's why I decided to do this show."

Looking back on that past 5 minutes, they have performed at the highest. Another 5 went back the students' home facility to see as much good by their meeting.

"One complaint," says the night activities, is a good sleeping and handwriting. "I know that you can expect the high. When Jim C. says, you had nothing to do, the other two or had perfect, they go to go to school. The students have been excited to go to school and they were surprised that night."

The next year, *Archaeopteryx* is going to exhibit the capacity to take some perches as the Hominids. Several birds, but with long, strong, long wings, for a small, sharp, short of the point.

In terms of our own business plans, they have to change or our clients will become bored with the programs we offer, and disenchanted. The first thing you want to do is go over the habits of leaving the reins out all the time. The one thing you want to get over the habit of doing is continuing to work different talent separately.

COUNSELLING

For many of you and of your car may be ready! You may like to

This tradition projects, like n

A black and white photograph of a man from the chest up. He is wearing a dark-colored t-shirt and a dark beanie. He is looking down and slightly to his right, with his right hand near his chest, possibly adjusting his shirt. The background is a plain, light-colored wall.

Comedian Jason Rosen performed for a packed house in the gymnasium on April 1. The CBJ brought the entertainment to the college to celebrate April Fools Day. It was the first comedy act of the year.

COUNSELOR'S CORNER: Graduation

For many of you, the end of this semester represents the end of your current studies at Coastlago College. You may be ready to begin a new career or ongoing studies. You may be planning to move to a new city or to travel. This transition will be a welcome relief from studying one more, late night, and too-short class.

You should feel proud of your accomplishments. You have reached a goal that seemed so far away when you began. Sometimes, you may experience anxiety or doubts: the life you have known is about to change, and you aren't exactly sure what the next part of your life will look like. There may be sadness as you leave behind friendships and support systems. You might miss past teachers who have been mentors to you. If you remember back to your first semester here, you may have had many of these same feelings, but with time you developed new relationships and opened up to new experiences.

So, as you graduate, take away the gifts of a College diploma, new skills, and confidence in your achievements.

Congratulations!

A Message from Student Services Team 2002

Be heard and you may be a winner!

Since signing on with workopolisampus.com in September 2000, we are interested in knowing if the Web site is meeting your expectations, and if you have found it useful in your job search. Please take a few moments to tell us what you think!

Return the survey to Career Services, Room 2804, Deen Campus and you will be entered into a draw to win four Canada's Wonderland all-day passes.

Surveys must be returned no later than April 26, 2000 to be entered into the draw.

**Career Services
Student/Alumni Survey
www.workopolisampus.com**

Are you a:

- ☐ Student
☐ Graduate

Are you looking for?

- ☐ Full-time work
☐ Part-time work
☐ Contract work

Lacrosse Canada's national summer sport

By BRAND STEVENSON

Many people think of Canada's national summer sport, like they think the other sports are, as hockey. In some ways, when most people think of hockey, they think of the game as being the most popular sport in the country.

In May 1994, lacrosse was declared Canada's national summer sport, while hockey was declared the national winter sport.

Even though the government did not officially recognize lacrosse as a national sport until 1994, according to some lacrosse fans, it has been known as the national sport by the media as early as 1929.

The game, which has been dubbed "the fastest sport on two feet," is strongly associated with the Canadian culture.

In some times played by native Americans, and was an important part of their spirituality and identity.

According to some lacrosse fans, they played to honor the Great Spirit and their Creator. Lacrosse games would also be played to settle arguments between nations. The leaders and others of each nation would negotiate a game, and the winner would be required to do the work the other party did.

As mentioned by the Great Spirit.

Some people would say, according to some, and according to the Great Spirit, there was no game played between the two sides until the players would reach the end.

The game, which has been dubbed "the fastest sport on two feet," is strongly associated with the Canadian culture.

Each nation played the sport in its own way, and they all had different names for the game. The Algonquians called it "I," the Hurons called it "Tewarons,"

It was, the French called it "chasse-croisilles" or "chasse-croisilles." The Algonquians called it "I," the Hurons called it "Tewarons," and the French called it "chasse-croisilles."

As the game began spreading to the European colonies, they thought it would make a great sport, and called it "lacrosse" in 1627, the

Marquis Lacrosse Club left a membership in Kingston and the National Lacrosse Association, a governing body for the sport, was born.

Through the years of a change, the Canadian Lacrosse Association, which had 115,000 members for the sport, had changed because some people had the game was becoming too professional and professional.

In 1925, lacrosse was played across Canada, and it was called the "fastest sport on two feet." The Canadian Lacrosse Association, which had 115,000 members for the sport, had changed because some people had the game was becoming too professional and professional. In 1925, lacrosse was played across Canada, and it was called the "fastest sport on two feet." The Canadian Lacrosse Association, which had 115,000 members for the sport, had changed because some people had the game was becoming too professional and professional.

At that time, lacrosse was not a popular sport, and it was not considered to be a game for the young people.

It was, the French called it "chasse-croisilles" or "chasse-croisilles." The Algonquians called it "I," the Hurons called it "Tewarons," and the French called it "chasse-croisilles."
